SOFTWARE DEVELOPER

saydenier@gmail.com , +58 412-5554988 | +58 414-2606494 , Miranda, Venezuela , [linkedin.com/in/Saydenier](https://www.linkedin.com/in/Saydenier)

SUMMARY

Software Developer with experience in consulting, full-stack development, ETL, Python, .NET, and Azure. Skilled in delivering cloud-based, data-driven solutions, including BI, Big Data, and advanced analytics projects. Experienced in leading software projects and implementing Microsoft technologies.

EXPERIENCE

Semi Senior Developer

Jun 2025 - Present

Clarika Group

Remote

- Developed and optimized AI agentic applications, focusing on integrating agentic tools and flows within both core systems and internal tools.
- Reduced query processing time for fetching roles and permissions in cross-platform processes from 5 minutes to 15 seconds through advanced query optimization.
- Collaborated closely with cross-functional teams to design and implement agentic workflows, enhancing automation and system efficiency.

Software Consulting / Technical Leader

Nov 2020 - May 2024; Feb 2025 - Present

ASP Consulting

Remote

- Led the adoption of AI agentic development strategies, introducing advanced tooling and methodologies to enhance team productivity and solution capabilities.
- Served as technical lead for multiple projects, architecting and delivering cross-platform mobile applications using React Native, Expo, and Obytes.
- Engineered data-driven solutions leveraging Microsoft technologies such as .NET, Azure App Services, Azure SQL, Cosmos DB, and Blob Storage, ensuring secure and scalable cloud deployments.
- Optimized database performance through advanced query tuning, stored procedure enhancements, and ETL processes using SSIS and SQL Server, while developing interactive BI reports with SSRS.
- Oversaw deployment pipelines and project management workflows with Azure Pipelines and Azure Boards, supporting robust software delivery and team collaboration.

Senior Fullstack Developer

Nov 2020 - Present

Newry Global

Remote

- Collaborated across teams to design and implement ETL pipelines using Python, Pandas, Flask, MongoDB, and PostgreSQL, adapting to diverse technology stacks and workflows.
- Developed and maintained APIs in .NET Framework for file uploads to Google Drive, and in .NET Core utilizing hexagonal architecture, repository pattern, SQL Server, and MySQL.
- Integrated GCP services including SSO, Google Drive API, Buckets, BigQuery, and LookerStudio to enhance data accessibility and reporting.
- Expanded and maintained ERP functionalities in ASP.NET (Framework 3.5), ensuring robust and scalable business solutions.
- Containerized applications with Docker to streamline deployment and improve cross-environment consistency.

Senior Fullstack Consultant (Temporary Project)

Oct 2023 - May 2024

BanESCO

Remote

- Analysis of software solutions of the entire banking infrastructure of the organization.
- Design of solutions (APIS) for systems migration.

Fullstack Developer

Nov 2020 - May 2024

VeCore Systems

Remote

- APIS development in .Net and .Net Framework.
- Angular v13 onwards (eCommerce Project)
- Design of integral solutions
- Supervision of new team members (juniors).
- Azure (DevOps, CosmosDb, AppServices)
- Third party APIS integration (Fedex, AutoForce, Google Maps)

EDUCATION

IUTCP

2016 - 2019

TSU Computer Science (unfinished)

Doña Benilde

2010 - 2015

Bachelor of Science

SKILLS & AWARDS

- Technical Skills:** .NET Framework, .NET Core, ASP.NET, Azure, C#, SQL Server, Cosmo, MySQL, PostgreSQL, Redis, Dynamo, MongoDB, AWS, EC2, S3, Lambda, JavaScript, TypeScript, PHP, Python, Angular, React, Blazor, Astro, Docker, Kubernetes, RKE2, React, WAF, Front Door
- Languages:** Spanish (Native), English
